

7th-12th Grade Immunization Requirement

A [new school immunization law](#) requires all students entering 7th through 12th grades in the 2011-2012 school year in California to be immunized with a pertussis (whooping cough) vaccine booster called Tdap.

A copy of your child's yellow immunization record showing proof of Tdap immunization must be provided to your child's school. Your child will not be allowed to start school for the 2011-12 school year if we do not have proof of immunization.

You may take your child to his/her doctor for immunization or obtain the immunization at one of the following clinics.
