

San Marcos High School Counseling Department – FAQs of Incoming Sophomores

*Please read this over with a parent/guardian before choosing your courses for next year.
Please notify your counselor of any course change requests by the May 31, 2019 deadline.*

TIMELINE FOR INCOMING SOPHOMORES

Monday, February 4th	February 11 th – February 21st
<ul style="list-style-type: none"> ○ Counselor presentation in theater with English class ○ Receive transcript, course selection sheet, FAQs <p>With parent/guardian review:</p> <ul style="list-style-type: none"> ○ FAQs ○ Course selection sheet ○ AP/Honors testimonials (info. about AP/H courses) ○ Online course catalog (course descriptions) ○ Graduation requirements (next page) ○ College requirements (A-G listed below) ○ Choose courses & sign sheet ○ Have parent/guardian sign course selection sheet 	<ul style="list-style-type: none"> ○ Bring signed course selection sheet to school ○ One-on-one meeting with counselor to go over course selection sheet as related to career and/or major goals. Meetings will be held through 9th grade biology classes.

Review your transcript with a parent/guardian before you choose classes:

1. Highlight any Ds and/or Fs on your transcript.
2. During your counselor meeting, go over any Ds/Fs for a remediation plan.
3. Look at the "Need" column on your transcript as well as page 2 of FAQs for SMUSD graduation requirements. 10 credits = 1 year.
4. Consult the A-G chart to the right for college admissions minimum requirements. Please consult the admissions websites of private/independent schools as they sometimes require more than the A-G

UC & CSU "A-G" Eligibility Requirements		
Selective universities and majors strongly recommend coursework above minimum requirements. "C" or better required in each course.		
A	US History/Social Science	2 years
B	English	4 years
C	Math (including Algebra II)	3 years (4 recommended)
D	Lab Science	2 years (3-4 recommended)
E	Language other than English (LOTE)	2 years same language (3-4 recommended)
F	Visual or Performing Art	1 year
G	College Prep Elective	1 year

What should I be doing as a freshman/sophomore?

- Choose challenging courses, but be sure to have a balance and not overwhelm yourself.
- Start exploring careers and majors. See Mrs. Liu in the college and career center (C3) for different resources to do this.
- Get involved in your school and/or community. Not only does this make life more fun and rewarding, but colleges like students who have a positive impact on their school and/or community.
- Keep your grades up. Learn good study habits and ask your teachers for assistance if you're struggling.
- Begin researching colleges or other postsecondary options using www.californiacolleges.edu and/or <https://bigfuture.collegeboard.org/>

SMUSD Graduation Requirements Classes of 2022	
ENGLISH	4 Years (40 credits)
MATH	2 Years (20 Credits) *Including one year of Algebra 1 and Geometry

Questions frequently asked to counselors (FAQs)

How many classes do I have to take?

Typically, a student in grades 9-11 takes six classes each year (60 credits). Students in Marching Band, AFJROTC and AVID are often enrolled in seven periods. School policy does not allow students to enroll in seven courses unless enrolled in the special programs mentioned above. Some seniors who are ahead in credits, opt to take the minimum number required by SMUSD, which is four periods. Please see your transcript for your graduation requirements and read below (under senior-specific questions) about college admissions requirements.

Do I have to take math all four years? Which math class should I take?

SMHS strongly recommends that students be enrolled in a math course for all four years of high school. Community colleges (CC) and many universities use the senior year math course to determine placement. Students who do not place in transferrable math courses or remedial level math in college will spend time in lower levels of math that do not apply to a degree or transfer, therefore wasting time. Four-year universities also want to see a rigorous course schedule, which includes math, to meet selective admissions standards. Consult this chart as well as your current math teacher and counselor if you're not sure what course to take.

What is the difference between Algebra 2 (P) and Algebra 2 Honors? Which one should I take?

First, please review the course catalog with a description of each written by the math department. You should also ask your current math teacher for course suggestions. Algebra 2 is a college prep course that leads to other college prep courses such as Statistics and Calculus. Algebra 2 Honors is considered a pre-AP course and includes pre-calculus material. This course is meant for preparation for AP Calculus. It is fast-paced and challenging.

*Please note that starting in Fall 2019 we have a new college prep course "Algebra 2 for Strategic Business Management" being taught by Mr. Patalano. Please read the description in the online course catalog and see him in room 395 for any further questions.

How can I learn more about the expectations and content in SMHS AP/Honors courses?

Go to the SMHS home page: www.sanmarcoshigh.smusd.org. On the left side under Site Shortcuts, go to #ChallengeAccepted → AP/Honors Testimonials. For each course, students can see a sample course syllabus, which provides a course overview and course goals. Then students can click on "Testimonials" for each AP/Honors course. Here you can read how SMHS students rated the course in four key areas:

1. The Level of Difficulty of this Course
2. The Time Commitment to this Course Outside of School
3. The Amount of Academic Supports this Course Provides
4. The Continued Level of Interest in this Course

You can also read SMHS students' comments:

1. "What I Wish I Knew Before Entering the Course"
2. "Advice for Future Students"

Should I take all honors & AP courses?

It is not necessary to take all honors or AP courses in order to be admitted to a four-year university; however highly selective universities do expect rigorous coursework. SMHS recommends that students take more advanced courses in subject areas in which they have an aptitude or passion. Ideally, a student finds a healthy balance between academics, extracurricular activities, social time and relaxation. Students should take into account their academic strengths and outside activities that will affect their study time. Colleges make the same recommendation.

I heard that we can't drop AP & honors courses once school starts. Is that true?

Administration creates a teaching and course schedule based on the choices students make during spring course selection. Once school starts, courses and teachers are set and staffed. SMHS courses are year-long and therefore students will be expected to remain in a course for the full academic year. Course change requests can be made up until May 31, 2019.

What must I do if I plan to play sports in college?

You should notify your coach, the athletic director (Mr. Meyer in room 667) and your counselor who can help you plan the required coursework to be NCAA eligible. Register for the NCAA at www.eligibilitycenter.org. This is how our registrar provides your transcript to the NCAA. During course selection, notify your counselor so he/she can go through NCAA eligibility and help you plan your courses. SMHS also holds an annual NCAA night for parents, so be sure to attend that each fall with a parent/guardian.

What resources do we have at SMHS to help me figure out my interests, career options, major options, colleges, etc.?

Our most comprehensive resource is our College and Career Center (C3) with Mrs. Liu. She can walk you through interest inventories to help you find careers that match your interests. She can show you websites, such as www.californiacolleges.edu, where you can discover interests, careers, research colleges, take a skills assessment, make a resume and create a four-year plan of study. She has scholarship resources for juniors and seniors as well as information about the SAT and ACT. The C3 also provides information on internships, summer programs, financial aid, work permits and the military. Go visit- it is open every day until 3:30 pm.

Should I take the SAT and/or ACT? When? How should I prepare?

Students who plan on attending a community college after high school do not need to take the SAT or ACT. Students who plan on applying to a four-year university directly from high school should try both exams in the spring of junior year. Many seniors repeat one or both exams early fall of senior year. Please see the counselor classroom presentation (posted on the website) for more details. If you receive free/reduced lunch, there are fee waivers available with the counseling secretary. If you would like more information on test prep, please see Mrs. Liu in the C3 for free on-campus classes after school and other opportunities in the community and online. One of the best free online resources is: <https://www.khanacademy.org>. Be sure to utilize the resources in your College Board account (you established this if you take the PSAT in October) to help you in your SAT test preparation.

If I have any Ds or Fs, how can I get into SMUSD summer school?

SMUSD will be offering summer school for remediation only (not advancement) for **incoming 11th and 12th graders**. There will be two sessions (June 24- July 3 and July 8 – July 25). Students may take one course each session for a maximum of two classes/10 credits. Priority registration will be granted to students who sign up with their counselor during course selection in February. Students on the priority list will pick up schedules and make any necessary adjustments on Thursday, June 13 (day after school gets out). Students who would like a summer school class and are not pre-registered, will come to SMHS on Friday, June 14 and be registered in a class if spaces are available. Likely summer course offerings include World History, English 9-11, Spanish 2 (2nd semester only), Chemistry, Biology, Algebra 1, Geometry and Algebra 2. **SMUSD Summer School is not available for incoming 10th graders.**

What if I want to take a summer course through another school?

Students may earn elective credits through outside charter/online schools, however the course must be pre-approved by Principal Dawson. Elective credits are any classes above the minimum SMUSD graduation requirements. Please be sure the course is NCAA (if you want to compete athletically at the college level) and/or UC/CSU-approved. Please see your counselor for the "Request for Outside Credit" form, which has more information.

If you're interested in taking a community college course (Palomar or Mira Costa College) you are advised to consult your counselor, however no pre-approval form is necessary. Community college courses are tuition-free to high school students, so ask your counselor for the K-12 form. Steps for signing up for a community college class are detailed in the K-12 packet.

Spring 2019

January 29 – CTE (Career Technical Education) Fair

April 10 – College Knowledge Night at SMHS (details to follow in Remind 101, in newsletter and on website)

April 23- SMUSD Future Fair (details to follow)
