School Site Council San Marcos High School
Material/Equipment Proposal

The priority of the School Site Council is to encourage staff members to implement the goals of the Local Control and Accountability Plan (LCAP). When requesting funds, you must address at least one of the goals of the LCAP. These goals are:

Goal I College Career Ready: Prepare students to successfully enter higher education or pursue a viable career path by providing all students with an equitable opportunity to access a coherent, articulated and engaging instructional program aligned to the Common Core.

Goal II Student Progress: Provide a clearly defined tier of academic and behavioral interventions for students not progressing toward the expectation of college and career as noted by data.

Goal III Professional Learning: Employ the highest quality staff and support them throughout their career with relevant professional learning and structures to facilitate collaboration in order to maintain the highest quality instruction for all students.

Goal IV Parent Engagement: Strengthen parent involvement in the educational process through purposeful communication, meaningful events, informative workshops and regular opportunities for input and partnerships.

The person making the request is required to attend the designated meeting to answer any questions that the committee may have. It is acceptable to send an designee to the meeting, but this must be arranged with the coordinator prior to the meeting. All material/equipment proposals must be submitted on this form. You will need to copy and paste this form into either Google Docs or Microsoft Word.

1. Describe the item(s) requested and the rationale for this request.

Flag Set- This will be used for students representing their countries in mock debates and discussions. This is the most comprehensive set that I could find that didn't look like it would fall apart.

CIA World Factbook- Data and statistics on pretty much every country in the world produced semi-annually by the CIA. This is one of the best and most comprehensive resources for studying ahead of debates and conferences.

2. Itemize the materials or equipment cost. Including all applicable taxes and shipping costs. (attaching a purchase order or a itemized bid is not sufficient.)

[3 copies of CIA World Factbook. 19.99 each](#)

[1 set of world flags. 35.99](#)

Amazon is offering free shipping on orders over \$25

3. Have you sought other funding sources? If so, what were those sources?

4. Which LCAP goal(s) does this request address?

Goal 1 College Career Ready

MUN covers a wide range of skills and content that is useful in college or career. Students who participate in these debates practice academic discussion during unmoderated caucuses where they negotiate and engage with other delegates. Students also have to practice some prepared speeches and some impromptu speeches to share in front of the rest of the delegation. All of this hinges on the research and preparation that they have done before. Their actions in conferences will be better accepted and more applicable if they are more prepared with their research. The CIA World Factbook helps them with that research and the flags help us run our practice debates more efficiently.

5. How many current year students will this benefit?

MUN meetings are attended by 20 to 30 students each week consistently

6. How will this benefit students?

Making debates easier and more accurate with flags. The CIA world FactBooks are useful for debate research.
